

## ALGE COMMUNICATIONS

Specialized voice amplifier for your Alge headsets -- features volume control and 3-way talk-control switch!

### OVERVIEW

The SV4 speech amplifier is an ultra-efficient amp specifically designed for the Alge Q34 & HS-1D headsets. It's 3-way talk switch allows complete flexibility over your voice options, while its ingenious circuitry provides outstanding speech clarity.

### DESCRIPTION

- Designed specifically for the Alge Q34 & HS-1D
- 3-way talk switch: Listen-only; Always-on Talk & Listen; Push-to-Talk
- Simple banana-jack connection with DIN plug for headset
- Built-in volume control
- Power is switched on through headset connector (DIN plug)
- Powered by 9V battery; lasts for months as long as headsets are unplugged when not in use

### ACCESSORIES & ADD-ONS
