

ALGE TIMY HANDHELD TIMER

OVERVIEW

The new Alge Timy redefines the "handheld timer" class with a huge range of features, and then some, normally only seen in large desktop timers. On top of it all, the Timy is among the lowest-priced timers on the market. Outstanding features and outstanding price = outstanding value!

DESCRIPTION

- Extremely accurate timebase based on Alge's temperature-compensated quartz crystal ("X"-equipped models)
- High-readability, high-contrast 128 x 64 liquid crystal display employing multiple font sizes & styles permits outstanding intuitive interface
- Weatherproof silicon keyboard features large buttons that facilitate use even when wearing heavy gloves
- User-upgradeable flash-based firmware allows for easy evolution of device, as well as easy installation of custom sport-specific programs. Updates available [here](#)
- Multiple communication protocols including **USB**, RS-232, and RS-485
- Supports scoreboard-output
- **9-channel capability**, with expandability up to 99 channels
- huge memory -- up to 18,000 splits
- Optional integrated high-speed printer (Models P & PXE). Printer features an absolutely simple paper-change process that takes seconds. Printer is also available as a standalone device called the **P5**
- High tolerance to weather extremes -- rated from -20C to 55C (-4F to 122F), but we've used this device in -40C (-40F) with no problems, though we recommend the printer be turned off to conserve batteries
- Internal rechargeable batteries

ACCESSORIES & ADD-ONS

The following accessories are available for the Timy:

- **TIDO 9-channel docking station / expansion bay**
- **Multichannel Adapter MC9**
- **Printer- P5 (for models not equipped with built-in printer)**

MODELS AVAILABLE

- Timy "PXE" -- Top-of-the-line Timy with integrated printer and thermo-compensated quartz crystal
- Timy "XE" -- same as above but no printer; unit is compatible with new **P5** printer as an add-on
- Timy "P" -- Timy with integrated printer but no thermo-compensated quartz crystal (not recommended for use in extreme climates)

COMPATIBILITY

The Timy is fully compatible with all existing **Alge & PST** products, including all PST displays.

PRODUCT CERTIFICATION

Certain models of this timer that utilize the thermo-compensated quartz crystal have been homologated for use in international competition by the International Ski Federation (FIS). In order to comply with the certificate, the timer(s) must possess or be connected to a functioning printer.

TIMY PXE HOMOLOGATION # ALG.001.02

TIMY XE HOMOLOGATION # ALG.002.02
