

PELICAN WEATHERPROOF CASES

The best way to protect your investment!

OVERVIEW

When on the road at events, we have been using Pelican cases for years to protect all our valuable timing gear. In fact, we love Pelican stuff so much we decided to become a dealer. Their products are indestructible and are extremely versatile and lightweight. Absolutely worth the price of admission.

DESCRIPTION

- Ultra heavy-duty watertight molded protective cases
- Available in numerous sizes & configurations
- Available with heavy-duty ballistic compartment liner with easy-to-arrange velcro sections, or with pre-gridded "pluckable" foam block that allows you to create your own custom liner
- All cases have watertight gasketed seals and depressurization valves
- All cases have super-strudy folding handles; many have multiple handles
- Many cases have wheels and retractable full-length towing handles

RECOMMENDED PELICAN MODEL DESIGNATIONS FOR PST TIMING KITS

- **1700** cases for Start Kits. Each Start Kit contains start gate with attached wand, spare wand, headset, all cables
- **1650** cases for complete Photofinish systems
- **1650** cases for complete Equestrian systems
- **1620** cases for S4- or TIMY-based dual finish lines. Each case contains timer, printer, photocells, brackets, cabling, headset
- **1610** cases for Wireless Coach's Kit. Kit contains timer, wireless transmitter-receiver set, startgate, photocells, all cables. Ideal for training!
